

# WhatsTheCatch Claude v1.0

## AI Legal Document Intelligence — User Guide

whatsthecatchclaude.iacolettisoftware.com • Version 1.0 • March 2026 • Iacoletti Software

### Section 1 — Disclaimer & End User License Agreement

---

#### Disclaimer

**IMPORTANT:** WhatsTheCatch Claude is provided for informational purposes only. It does not constitute legal, medical, or financial advice of any kind. It does not replace a lawyer, doctor, or financial advisor. Always consult the appropriate licensed professional before making any decision based on these results. Iacoletti Software is not responsible for any damages, losses, or adverse outcomes arising from use of or reliance upon the results produced by this tool.

#### End User License Agreement (EULA)

Project: WhatsTheCatch Claude v1.0 | Licensor: Iacoletti Software | Effective Date: March 2026

#	Clause	Terms
1	License Grant	Iacoletti Software grants you a personal, non-exclusive, non-transferable, revocable license to use the Software for personal, educational, and non-commercial professional use.
2	Intellectual Property	The Software is the exclusive intellectual property of Iacoletti Software. All rights, title, and interest — including the review architecture, document analysis schemas, and underlying algorithms — remain solely with Iacoletti Software.
3	Restrictions	You shall not reverse engineer, decompile, disassemble, redistribute, sell, sublicense, modify, or create derivative works based on the Software without prior written consent.
4	Confidentiality	The Software contains proprietary trade secrets. You shall not disclose performance benchmarks, internal logic, code snippets, or screenshots of the backend to third parties without prior written consent.
5	Warranty Disclaimer	THE SOFTWARE IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY KIND. IAOLETTI SOFTWARE DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.
6	Limitation of Liability	IAOLETTI SOFTWARE SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING FROM THE USE OF OR INABILITY TO USE THE SOFTWARE.
7	Termination	This license is effective until terminated. Iacoletti Software may terminate this Agreement if you fail to comply with any term. Upon termination, cease all use of the Software.
8	Governing Law	This Agreement is governed by the laws of the Commonwealth of Virginia, without regard to its conflict of laws principles.

### Section 2 — Overview

---

WhatsTheCatch Claude v1.0 is an AI-powered legal document review engine that analyzes PDF documents for risks, red flags, missing protections, and actionable concerns. It delivers a structured plain

language document summary with a risk score (0–100), a verdict, an executive summary, and a detailed breakdown of every finding.

WhatsTheCatch performs structured analysis across 10–12 review categories specific to each document type — identifying one-sided terms, missing protections, unusual clauses, and integrity issues.

### Who It Is For

- Individuals reviewing contracts, leases, or agreements before signing
- Anyone who receives legal, financial, or medical documents they don't fully understand
- Professionals who need a fast first-pass review of business documents
- People who want a plain-language breakdown of what a document actually says

### Document Categories Supported

Category	Document Types
Legal	Contracts, agreements, court filings, leases, wills, powers of attorney
Financial	Loans, mortgages, promissory notes, financial statements, audits
Medical	Medical records, insurance forms, informed consent, billing documents
Business	NDAs, employment agreements, corporate docs, business policies

## Section 3 — Getting Started

---

WhatsTheCatch Claude runs entirely in your browser — no installation required. You need a personal Anthropic API key from [console.anthropic.com](https://console.anthropic.com).

### Setting Up Your API Key

1. Go to [console.anthropic.com](https://console.anthropic.com) and create a free account.
2. Go to Settings > Billing, add a payment method, and purchase at least \$5 in credits (mandatory minimum — credits never expire).
3. Go to Settings > Limits and set a monthly spending cap — \$5–\$10/month covers most personal use.
4. Go to API Keys, click Create Key, name it 'WhatsTheCatch', and click Create.
5. Copy the key immediately (starts with sk-ant-...) — it cannot be viewed again. Store it in a password manager.
6. Open WhatsTheCatch at [whatsthecatchclaude.iacolettisoftware.com](https://whatsthecatchclaude.iacolettisoftware.com), paste your key, and click Save & Activate.

## Section 4 — How to Run a Review

---

7. Select a category — Legal, Financial, Medical, or Business. This determines which review protocol Claude applies.
8. Upload your PDF — click Import PDF or drag and drop. Maximum size: 3.2 MB. PDF only — convert DOCX/DOC to PDF first via File > Export in Word, Google Docs, or LibreOffice.
9. Click BEGIN LEGAL REVIEW. Keep the tab open — analysis takes 15–45 seconds.

10. Review the full report when it appears (see Section 5 for report details).
11. Export your results before closing — reports are gone permanently once you close or clear (see Section 6).

**TIP:** If your document spans multiple categories (e.g., a business loan), choose the primary category. The AI will still surface relevant issues from other domains within its findings.

## Section 5 — Understanding Your Results

Report Section	Contents
Risk Score (0–100)	Overall risk level — higher means more problematic
Verdict	NO SIGNIFICANT ISSUES IDENTIFIED / ITEMS NOTED FOR AWARENESS / PROFESSIONAL REVIEW RECOMMENDED / PROFESSIONAL REVIEW STRONGLY RECOMMENDED / PROFESSIONAL REVIEW REQUIRED
Executive Summary	Document overview, key findings, and overall assessment in plain language
Key Parties	All named parties, entities, and signatories identified in the document
Important Dates	Execution, effective, expiration, renewal, and payment due dates
Financial Terms	Amounts, interest rates, fees, penalties, and payment schedules
Findings	Every issue found, grouped by category, with severity badge and plain-language explanation
Missing Protections	Standard clauses absent but expected for this document type
Recommendations	Specific items to discuss with a licensed professional before signing or acting
Token & Cost Display	Exact input/output token counts and dollar cost for the review

### Risk Score Ranges

Score	Level	Meaning
0–24	Low	Clean or standard document. No significant issues found.
25–49	Medium	Minor issues present. Generally workable with awareness.
50–79	High	Meaningful issues that warrant negotiation or professional review.
80–100	Critical	Seriously flawed, dangerous, or potentially fraudulent document.

### Finding Severity Levels

Severity	Meaning
Info	Noteworthy but not problematic. Standard terms worth understanding.
Caution	Slightly unusual or one-sided. You should be aware before signing.
Warning	Problematic. Should be negotiated or clarified before signing.
Critical	Seriously dangerous, predatory, or potentially fraudulent. Requires immediate attention.

## Section 6 — Saving Your Results

---

WhatsTheCatch Claude does not store reviews. Once you close the tab or clear results, the report is gone permanently. Save before leaving the page.

- Save as Text — click the document icon in the report header to download the full report as a plain .txt file.
- Save as PDF — click the PDF icon to open a print-ready version in a new tab, then choose Save as PDF from the print dialog.

Both export formats include: document metadata, the disclaimer notice, risk score, verdict, executive summary, key parties, important dates, financial terms, all findings, missing protections, recommendations, and token/cost data.

## Section 7 — Data Security, Privacy & BYOK Architecture

---

### Bring Your Own Key (BYOK) Architecture

WhatsTheCatch Claude is built on a Bring Your Own Key (BYOK) architecture. This means the application never holds, transmits, or has access to your API credentials or the content you analyze. Your Anthropic API key is the authentication token that belongs to you.

When you enter your API key in the app, it is stored exclusively in your browser's local storage. Every API call goes directly from your browser to Anthropic's servers, authenticated under your personal Anthropic account.

This architecture was chosen specifically to protect your privacy. Because Iacoletti Software never receives your data, it is structurally impossible for your content to be stored, sold, or exposed through Iacoletti Software. Your data belongs to you, travels only between your browser and Anthropic, and is encrypted with your API key in transit.

### What Anthropic Sees

When you submit content for analysis, it is sent directly from your browser to Anthropic's Claude API using your personal API key. Anthropic processes the request under your account. Review Anthropic's data usage and privacy policies at [anthropic.com/privacy](https://anthropic.com/privacy) for current terms.

Item	Detail
API Key Storage	Browser localStorage only
Media Files	Sent directly from your browser to Anthropic's Claude API
Results	Displayed in your browser only — never stored anywhere
Encryption	All API calls use HTTPS/TLS encryption in transit
BYOK	Your API key authenticates directly with Anthropic

Note: The Anthropic API is not designed for classified, privileged, or highly sensitive documents. Do not upload attorney-client privileged communications, classified government information, or third-party personal health information without authorization. Review Anthropic's privacy policy at [anthropic.com/privacy](https://anthropic.com/privacy) before uploading sensitive material.

## Section 8 — API Cost

---

WhatsTheCatch Claude uses the Anthropic pay-as-you-go API. You pay Anthropic directly. The typical cost is \$0.10–\$0.50 per scan.

**TIP:** Monitor your balance at [console.anthropic.com/usage](https://console.anthropic.com/usage). Credits never expire. Starting with \$10 is a practical first load for most users.
